A frontend developer specialising in React, interested in expanding to other frontend frameworks and full-stack development

---

## Experience

### Frontend Developer

Visit Jericho – a non-profit project with Tech To The Rescue

[beta.visitjericho.com](https://beta.visitjericho.com) / [Source code \(GitHub\)](#)

March 2024-May 2024

- **Designed** the UI of the website using **Figma**
- Developed the frontend of the website from scratch using **Next.js**, **Typescript**, and **Tailwind CSS**
- Delivered code updates in a **CI/CD pipeline with GitHub Actions**
- Introduced **headless CMS with GraphQL** to allow website owners to manage content in the familiar WordPress environment
- Implemented **unit testing and end-to-end testing in Jest and Playwright**

Since March 2024, I have completed multiple online courses to build on the knowledge gained in the Web Developer Bootcamp and gain specialised skills. The courses allowed me to dive into:

- **Responsive, mobile-first web design** with vanilla CSS, TailwindCSS, and configurable component libraries
- **React** and React hooks, such as `useState`, `useEffect`, `useContext`, `useRef`, and `useMemo`
- **Next.js** and performant React with data APIs and Suspense
- **ES6 and modern Javascript** features and practices, such as classes, arrow functions, and shorthand methods and properties
- **Typescript**, from essentials such as generic types to advanced matters such as generic constraints

### Event Coordinator

FeedbackFruits

June 2021–February 2024

- Coordinated 3 events per month on average, which included internal **communication between multiple teams**, as well as external **communication with clients and vendors**
- **Established a data-driven event evaluation process** and conducted regular event data check-ups
- **Produced content** such as landing pages, articles, marketing emails, whitepapers, and graphic assets

---

## Education

**“The Frontend Developer Career Path”** online course  
Scrimba

Completed April 2024

**“The Web Developer Bootcamp 2024”** online course

Udemy

Completed January 2024
